1/STATEMENT BY THE BOARD OF DIRECTORS OF "SIRMA GROUP HOLDING" JSC

The present interim separate report of the management of "Sirma Group Holding" JSC covers the period, ending on 31 March 2022 and was prepared in accordance with the provisions of Article 39 of the Accountancy Law and Art. 1000, para. 2 and 5 of the Law on the Public Offering of Securities (POSA), including also the established events, occurring after the balance sheet date. The structure of this report is in accordance with Annex 9, 10 and Appendix 11 to Article 32a (2) of Ordinance No. 2.

The board of directors of the holding confirms that:

- there were no irregularities in which managers or employees were involved, which may be material to the consolidated financial statements;

- all material transactions are duly accounted for and reflected in the interim financial statements as at 31 March 2022;

- there is no actual or potential breach of laws and (or) other regulatory provisions that would have a material impact on the individual financial statements or could serve as a basis for reporting contingent loss;

- there are no legal or other restrictions on the flow of funds;

- there are no known trends, requests, commitments, events or occasional circumstances for which there is reason to expect that they may affect the company as a whole.

This management report contains estimates and information based on our beliefs and assumptions, using currently available information about them. Any statements contained in this report that are not historical facts are predictions. We have based these statements on the future of our current expectations, assumptions and predictions about future conditions and events. As a result, our predictions and information are exposed to uncertainties and risks, many of which are beyond our control. If one or more of these uncertainties or risks materialize or if the underlying management assumptions prove to be incorrect, our actual results may differ materially from those described in the report. We describe these risks and uncertainties in the Risk Section of the report.

The words "purpose", "predict", "accept", "believe", "in the future", "we could", "rely", "we are confident", "appreciate", "expect"," we "intend," we can "," can "," prospect "," plan "," project "," predict, "would" and other similar expressions are intended to identify these forward-looking statements. Such estimates are, for example, those made in the Business Results section of our quantitative and qualitative disclosures about market risk in accordance with International Financial Reporting Standards (IFRS), namely IFRS 7 and related statements in our Notes to the financial statements, our prospects for development, and other forecast information that appears in other parts of

this report. Unless required by law, we do not commit and we have no obligation to update or revise predictive statements as a result of new information we have received about the conditions that existed at the time of this report, future events, or otherwise unless we are obliged to do so under the law.

This report includes IT industry statistics and global economic trends that come from information published by sources including International Data Corporation (IDC), a market information and information technology consultant, telecoms and consumer technology markets; Gartner, the European Central Bank (ECB); and the International Monetary Fund (IMF). This data type is only the forecasts of IDC, the ECB, the IMF and other data sources for the global economy and industry. SIRMA does not guarantee any statistical information provided by sources such as IDC, Gartner, ECB, IMF, or other similar sources cited in this report. In addition, although we believe that information from these sources is generally reliable, this type of data is inaccurate. We warn readers not to create unnecessary dependence on this data.

In our Individual Management Report, we analyze our business activities for the reporting financial period as well as the current situation of "Sirma Group Holding" JSC. Starting from a description of our business, economic environment and strategy, we present our financial system and explain in detail our results and operations as well as our financial position and net assets. We also report on the various aspects of financial sustainability of "Sirma Group Holding" JSC and the expected development of possible risks.

The financial information presented in the "Sirma Group Holding" JSC JSC report includes our separate financial statements, our report to the Board of Directors and some financial aspects derived from our management accountability. The non-financial data presented in the report includes aspects of intellectual, human and social rights and relationships derived from our materiality assessment.

Our annual separate financial statements have been prepared in accordance with IFRSs. Internal control over financial reporting ensures the reliability of the information presented in the separate financial statements. Our Board of Directors has confirmed the effectiveness of our internal financial reporting.

The reporting period is the financial period ending on 31 March 2022. The report includes the activity of "Sirma Group Holding" JSC.

5/ "SIRMA GROUP HOLDING" JSC IN Q1 2022

Summary

2021 was a year of increased growth in all ICT segments. The products and services of the industry were seen as the remedy to all ailments from the pandemic restrictions. In 2022, this growth is expected to slow down some and markets to return to normal.

There are still a number of risks that could stop or slow down the growth of both the ICT industry and the global economy as a whole - geopolitical tensions, inflation, logistical difficulties, rising interest rates, the "the great resignation" are just some of the looming risks.

Forecast for development of the economy in Bulgaria in 2022

Despite a return to growth, Bulgaria has failed to recover its economy from before the pandemic crisis. This was expected to happen in 2022,but according to the BNB, the risks to the development of the Bulgarian economy in 2022 and 2023 are:

- Postponement of the implementation of investment projects;
- Slow pace of utilization of funds under European programs;
- Delayed implementation of the National Recovery Plan;
- Higher than expected inflation due to prolonged retention of high energy prices;
- War between Russia and Ukraine.

Development of the global economy in 2022

Following COVID-caused decline in global GDP of 3.1% in 2020 (less than expected), the economy recovered rapidly in 2021. The IMF forecast expects 5.9% global GDP growth for the year and another 4.4 % in 2022 - about half a percent lower than expected at the end of 2021 (World Economic Outlook Update, IMF, January 2022). The recovery was rapid, but in early 2022 its momentum slowed, some risks surfaced (new variants of COVID, logistical problems, energy prices, shortages of goods, inflation) and uncertainty increased.

The risks to the world economy are increasing also due to war between Russia and Ukraine, as well as expectations of further climate crises due to global warming. These two factors alone have the potential to radically change growth expectations.

Despite the rapid start of the recovery and optimistic expectations for continued growth, the World Bank (World Bank Development Report, February 15, 2022) outlines some important risks. According to the bank, rising inflation and the associated rise in interest rates outline an increasing risk for the financial sector from a sharp increase in non-performing loans. This would reduce access to finance for small and medium-sized businesses. This, in turn, risks slowing or halting the economic recovery. These risks are particularly strong in developing countries and low to middle-income countries (including Bulgaria).

The Industry of Sirma

The companies from Sirma Group specialize in the information technology (IT) industry. Industrial data is usually combined with data for the "communication segment", as this segment depends entirely on information technology. Accordingly, the industry has acquired the name "Information and Communication Technologies" or ICT for short. Of all the variety of ICT segments, the companies in the Group work mainly in the segments "IT Services" (system integration, infrastructure as a service, software as a service, software support, consulting) and "Business Software" (various software products and services aimed at different business verticals and custom software development).

The two main segments (IT Services and Software) in which the Group operates were the fastest growing in the past (<u>Gartner, january 2022</u>). Both segments are seen as the solution to all the problems arising from the global pandemic. The mass digitalization that is unfolding relies on "Software" for the various technological solutions and "IT services" through which these solutions can be implemented. This led to a dramatic growth in both segments in 2021 by 14.4% and 10.7% respectively on an annual basis.

Expectations for 2022 are that the two segments will maintain their growth, albeit at a slightly slower pace - 11% for "Software" and 7.9% for "IT Services". The growth of these two segments is expected to be sustainable in the coming years with CAGR 2020 - 2025 of 12.18% and 9.07% respectively.

Geographically, Sirma is focused on the world's leading markets (USA, UK and Europe), which are also expected to recover their IT costs the fastest, to pre-COVID levels.

Sirma is a B2B IT provider. Sirma's client portfolio - Digital Business (AI of Sirma, Consulting and Integration, Chatbots, IT Security and Software Development), Financial Institutions (AI of Sirma, Consulting, Integration, IT Security, Chatbots and products of Sirma Business Consulting JSC), Insurance (Sirma's Insurance Broker Platform), communication (AI of Sirma, GraphDB), publishing (AI of Sirma, GraphDB), media (AI of Sirma, GraphDB) and healthcare (AI of Sirma and products of Sirma Medical Systems AD) show a moderate reduction in IT spending levels in 2020, resilience during the COVID crisis, and a significant increase in their ICT investment is expected in the coming years (see Gartner below, ICT vertical spending). Sirma is not exposed to the verticals most affected by the COVID crisis - Transport, Entertainment and Tourism.

Forecast for the Global ICT Sector in 2022

According to Gartner (<u>Gartner, january 2022</u>), the ICT spending in the world in 2021 has grown 9% y/y to \$ 4.2 trillion in current prices.

The recovery of the ICT sector was indeed V-shaped. Growth has affected all segments of ICT in 2021, and in almost all it is measured in double digits. As a result, the ICT market far exceeded 2019 before-COVID levels. The world has greatly accelerated the levels of digitalization, offices have become "home", online payments have increased by nearly 50% in just one year. Logically the segment "Software" is ahead of the other segments and has an expected growth of 10.4% in 2021. Immediately after it is the "Devices" segment, where growth is expected to be 13% for the year – a result from the delayed purchases from the pandemic year 2020. This growth was closely followed by the IT services segment by 10.7%. Total ICT spending is expected to reach \$ 4.239 billion in 2021 and will continue to rise sharply in the coming years:

Global ICT Spending in Current Prices USD								
	2019	2020	2021	2022	2023	2024	2025	CAGR 2020-25

Growth y/y		2.26%	12.16%	7.01%	6.49%	7.63%	7.73%	7.21%

Recovery across countries, vertical industries and IT subsegments still varies significantly, prompting a "K-shape recovery" when we view the uneven recovery for many subsegments and geographies. The difference in 2021 ICT growth is linked, according to Gartner, to the different kind of support rendered by the governments. Countries which supported the individuals (USA, Canada, Australia) tend to have done better in 2021 compared to countries which have supported businesses and employment (Italy, Greece).

Looking at the various industries, "Manufacturing and Natural Resources", "Transport" and "Retail" have not yet reached the level of ICT spending of 2019. Peculiar with the "Retail" sector, which definitely has embraced digital sales during the pandemic, is that the infrastructure needed to do this was in place prior to the pandemic. Hence the sector is seeing less growth in 2021 in their ICT spending.

The other sectors of the economy are making extensive use of technology to deal with the effects of the pandemic – "Education" (9% growth), "Government" (7% growth), "Healthcare" (7% growth), "Insurance" (6.5% growth), "Banking and Investment Services" (6.7% growth) and "Media" (growth 6.7%).

The development of the different sub-segments of ICT varies greatly. "Infrastructure as a Service" (offered by Daticum) is undoubtedly the winner for 2021 (growth reaching 40% y/y) and in the coming years (CAGR above 30%). The other sub-segments, where Sirma specializes are clustered together:

- Infrastructure Software (offered by Daticum)
- Enterprise Application Software (offered by Sirma AI, Sirma Solutions and Sirma Business Consulting)
- Consulting (offered by Sirma Solutions and Sirma Business Consulting)
- Application Implementation and Managed Services (offered by Sirma Solutions)
- Business Process Services (offered by Sirma ICS, Sirma Medical Systems and Sirma Business Consulting)

and also enjoy strong growth of 7-14% in 2021 and CAGR 2020-2025 of 5-13%.

Cloud market growth is expected to be even more spectacular. The sub-segment "Desktop as a Service" will have outstanding growth above 65% in 2021 and a strong CAGR 2020-2025 exceeding 25%. This is followed by the emerging "Business Intelligence Applications" and the "Database Management Systems" and "Business Intelligence Platforms" where Sirma AI is specialized. All of them are expected to have 2021 growth between 25% and 50% and CAGR 2020-2025 ranging between 20% and 33%.

2022 is also emerging as a strong year for the ICT sector, although segment growth is expected to be a bit more

moderate. The market volume is expected to reach USD 4.5 trillion, an increase of 6% on an annual basis in constant prices, or 5.1% growth in constant prices.

Leading the growth of the sector are again "Software" and "IT Services", which are expected to grow by 11% and 7.9% respectively during the year.

The analysis of the components of the different segments shows an extremely diverse picture. The picture of the growing gap between the desire for owning things to using things as a service becomes visible. The growth of the "Software" segment in 2022 and the near future is mainly due to cloud technologies. Accordingly, "Infrastructure as a Service" (IaaS) is expected to grow by as much as 31% in 2022, and to maintain this growth until 2025. Other subsegments of the "Software" segment also have dramatic and sustainable growth. "Infrastructure Software" and "Enterprise Software" are expected to grow by 11-12% in 2022 and maintain this growth in the coming years with a CAGR of around 12% by 2025.

From the "IT Services" segment, there are also several wellperforming sub-segments that are somewhat interconnected and often offered together. "IT consulting", "Implementation and managed services" and "Business process services" are expected to grow between 6 and 11% in 2022, and this growth will be sustainable over time with CAGR to 2025 also between 7 and 11%. At the other end of the spectrum of the IT Services segment are the "Infrastructure Implementation" and "Hardware Support" sub-segments, which are growing poorly or shrinking altogether - clearly showing the sustainable transition of all businesses and users to the cloud environment. This assertion is reinforced by the shrinking "Fixed Services" market for both businesses and consumers.

When we look at the IT spending of the different industries, we see that in 2022 there are still four industries that have failed to recover their IT investments from the pandemic crisis - "Air Transport", "Heavy Industry" and "Online and Offline Entertainment". All other verticals increase their IT spending by an average of about 7% in 2022.

Risks

Inflation

2% per year is considered a normal inflation rate. At the same time, in 2022 and probably in 2023, most countries in the world are expected to experience higher than normal inflation, with levels in the United States alone expected to reach 6.56% in 2022.

According to Gartner (<u>Gartner, january 2022</u>), inflation, which is expected to sweep the world in 2022 and 2023, does not pose a threat to the ICT industry. The reason for this is the fact that the current inflation is driven by demand. This is an increased demand for goods that was diverted from the demand for services during the pandemic.

Lack of chips

A more serious risk for the ICT industry was the breakdown of logistic chains and the resulting - a shortage of chips. This shortage cost a number of problems in 2021. Gartner expects that by the end of the first half of 2022, the supply and inventory of microprocessors (MCUs), semiconductor disks (SSDs) and display drivers will be adjusted and returned to normal. The DRAM (dynamic RAM) and NAND markets are expected to remain tight within 2022, with supplies expected to return to normal by the end of the year.

The great resignation

Although the term "Great Resignation" is applicable to the United States and to some extent to the United Kingdom, it is beginning to appear in some other European countries. To some extent, the large resignation wave is also a result of the rising inflation. If the current employer cannot provide an increase in wages commensurate with inflation, employees change jobs for higher wages. This is not difficult to do because there is currently a shortage in the labor market. Accordingly, employees who have changed their employer actually find themselves in a better position than those who have not. Hence the risk for ICT companies of not being able to retain employees or the need to increase wages above the inflation rates.

The ability of ICT companies to provide and present the motivators they offer can mean filling the necessary numbers and joining the growth of the industry in 2022 or missing opportunities and stagnation.

The ability of companies to attract and retain talent in 2022 will be key to maintaining competitiveness. In addition to increasing salaries, employers will need to look at other motivations of their employees to keep their jobs.

COVID-19 pandemic

According to IDC, the development of the ICT market in 2020 and 2021 experienced the greatest volatility in its history. The main reason for this was the COVID pandemic and related restrictions. Despite encouraging news of the lifting of restrictions in late 2021 and early 2022, the risks associated with COVID for the growth of the ICT industry remain. Some of the client-industries of the ICT sector would be more resilient to recovering new COVID restrictions, while for others. The division among the different sub-segments in the ICT sector is similar. Sub-segments such as "Business Services", "IT Services" and "Periphery" are highly dependent on the development of the economy and enterprises. A corresponding return to COVID restrictions would severely limit their growth. At the other end of the spectrum is "Cloud Infrastructure" and "Cloud Software", which will not only be unaffected by the return of restrictions, likely to but are achieve additional growth.

Complicated international situation

The full-scale military invasion of Russia in Ukraine, which began on 24 February 2022 and continuing at the time of publication of these interim separate financial statements, caused a wide international response and affected the countries of Europe in various aspects. The expectation is that the military conflict will have a negative impact and affect all businesses to one degree or another.

PARTICIPATION IN MANAGEMENT AND IMPLEMENTATION OF CONTROL ON THE SUBSIDIAR COMPANIES

In Q1 2022, as in previous periods, Sirma Group Holding's senior management was actively involved in the management of its subsidiaries. The high expertise and accumulated experience of Sirma Group Holding's managers helped companies to formulate their development goals and strategies as well as their business and financial plans. As a

MARKETING

In operational terms, the annual marketing strategy and budget of the "Sirma Group Holding" JSC for 2022 ensured the planning, development and successful implementation of the following activities:

1. In addition to regular accounting services, management is presented with various BI reports built as know-how of the Group. The FAD of "Sirma Group Holding" JSC achieved monthly reporting of results at individual and group level. The department also managed to manage the companies' relationships with the

LEGAL SERVICES

The legal department of "Sirma Group Holding" JSC carries out legal services to the companies of the Group, which includes the preparation of corporate documents; assistance

- MANAGEMENT OF RISKS

The management of the risks of "Sirma Group Holding" JSC is the responsibility of the Board of Directors. In his activities, he is assisted by the Investment and Risk Committee. The holding also supports its subsidiaries for risk management.

Risk management is, inherently, the ability to anticipate threats to the company's activities, individual projects and minimize their adverse effects. The process is iterative. It starts with identifying the possible risks, goes through risk analysis and planning their management, then begins a process of monitoring and a regular return to the analysis process.

In "Sirma Group Holding" JSC a sophisticated risk management system has been set up.

of "Sirma Group Holding" JSC and the subsidiaries during the respective period.

2. Ensuring the most efficient allocation and utilization of the volume of financial resources formed in the main directions of the Group's activity.

 Optimization of the monetary turnover synchronization by size and time of the receipts and payments for the normal service of the undisputed payments.
 Ensure maximum profit at a given level of risk.

5. Ensure the financial equilibrium of "Sirma Group Holding" JSC and the subsidiaries in the process of their development.

In fulfilling the task of financial equilibrium, we have complied with the golden balance rule, which requires long-term assets to be funded by long-term capital sources, and short-term assets from short-term sources of capital.

6. Providing opportunities for quick capital reinvestment when changing the external and internal conditions for carrying out the business activity.

fiscal and social security systems. The timely introduction of taxes, timely information submission and the preparation of information under the Law for Public Offering of Securities to the Financial Supervision Commission and the BSE have been performed in the period.

with the preparation and implementation of the GMS; preparation of any commercial documents and contracts; settlement of commercial disputes; conducting court cases.

Risk management in the "Sirma Group Holding" JSC includes:

• Risk identification - This is a lengthy process that detects potential threats. In order to identify the expected and predictable risks, different methods are used: questionnaires (interview questionnaires), interviews, brainstorming, document analysis, a list of expected and predictable risks (checklist analysis), based on a previous experience

• Qualitative and quantitative risk analysis - Once the potential risks have been identified, a qualitative and quantitative analysis of each of them is required. The likelihood of occurrence and impact through predefined scales is estimated, for example Probability: very small, small, medium, large or very large; Impact: catastrophic, critical, permissible, insignificant.

A risk table is prepared with the data. Risks are grouped into categories, their likelihood of occurrence and their impact, as well as case scenarios that are implemented in case the risk occurs. The resulting list is sorted by impact and probability. A threshold is set, the risks over which it will be managed. The risk table is reviewed and reassessed on a regular basis, as there is a chance that risks may be dropped, new ones added or ratings changed.

• Planning actions to overcome the risk

The next step in risk management is planning. This is the process of documenting the measures that will be applied to managing each of the identified key risks. 3 management strategies are used:

a) risk avoidance - a strategy that reduces the likelihood of risk occurring;

b) minimizing the risk-taking effect - a strategy that reduces the consequences of the risk;

IMPACT OF EXCLUSIVE FACTORS

c) Emergency action plans - a strategy where the organization accepts the risk and is ready to deal with it if it comes to fruition;

As a result of the risk planning, a Risk Mitigation Monitoring and Management Plan is established. It may be a separate document or a set of information cards for each individual risk to be stored and managed in a database.

• Risk monitoring and control - This is the latest activity in risk management. This process has several main tasks:

confirm the occurrence of a risk

 \circ $% \left({{\rm{ensure that activities to prevent or deal with risks are implemented } \right)$

• Identify what risk has caused the relevant problems

document information to be used in a subsequent risk analysis;

The information in this report is not affected by the presence of exceptional factors.

SUMMARY INFORMATION RELATING TO THE STATE OF WHICH THE COMPANY DEPENDS ON PATENTS OR LICENSES, INDUSTRIAL, COMMERCIAL OR FINANCIAL CONTRACTS OR FROM NEW PROCESSING PROCESSES

"Sirma Group Holding" JSC is not dependent on patents or licenses, industrial, commercial or financial contracts, as well as new production processes. For all employees of the Company, it has the appropriate licenses for operating systems and application software for PCs and servers required for the normal workflow.

INFORMATION, CONCERNING SIGNIFICANT FACTORS, INCLUDING NON-ORDINARY OR RARE EVENTS OR NEW DEVELOPMENTS, THAT EXPRESSLY RENDER THE INCOME OF THE COMPANY'S ACTIVITY

There are no significant factors, including unusual or rare events or new developments that materially affect the Company's revenue and future investments.

SIGNIFICANT CHANGES IN NET SALES OR REVENUES DISCLOSED IN THE ACCOUNTS

Significant changes in net sales or earnings reported in the Company's accounts detailed in Section 6 of this Report are observed during the period considered.

INFORMATION ON GOVERNANCE, ECONOMIC, FISCAL, MONETARY POLICY OR POLITICAL COURSE OR FACTORS THAT SIGNIFICANTLY HAVE BEEN CONCERNED OR MAY CONTRIBUTE TO SIGNIFICANT, DIRECT, OR CONSEQUENTIAL ACTIVITY OF THE COMPANY

During the period under review, there were no factors of government, economic, fiscal, monetary or political factors that had a significant impact on the company's operations. The main factors that may affect the Company's operations and how it manages the risk are described in the Risk Factors of this document.

EVENTS AND BUSINESS NEWS IN Q1 2022

The following events and business news took place in Q1 2022:

31.03.2022

Disclosure of purchase of 105 000 shares of Sirma Group Holding JSC stock by related company Sirma Solutions JSC.

30.03.2022

Disclosure of audited annual individual reports of Sirma Group Holding JSC for 2021.

29.03.2022

Angelica Kabaivanova - Director of Business Development and Marketing at Sirma Solutions represented Sirma Group at <u>AxisTlv22</u> in Tel Aviv, Israel.

07.03.2022

Disclosure of share purchase of Sirma Group Holding JSC stock by related company Sirma Solutions JSC.

04.03.2022

Georgi Tsekov is the new Executive director of the daughter company of Sirma Group Holding JSC Daticum JSC.

01.03.2022

Disclosure of share purchase of Sirma Group Holding JSC stock by related company Sirma Solutions JSC.

01.03.2022

Disclosure of interim quarterly consolidated reports of Sirma Group Holding JSC for the period ending on 31.12.2021.

28.02.2022

Momchill Zarev, Chief Commercial Officer and Mark Belane, Director of Strategic Partnerships at Sirma Solutions took part in Connectivity Unleashed – the Mobile World Congress in Barcelona.

31.01.2022

Disclosure of interim quarterly individual reports of Sirma Group Holding JSC for the period ending on 31.12.2021.

MAIN LEGAL INFORMATION IN Q1 2022

Transactions with shares for the period 01.01.2022 - 31.03.2022:

Purchase of shares

In Q1 2022 the subsidiary "Sirma Solutions" has acquired additional 328 500 shares from the capital of "Sirma Group Holding" JSC through 14 transactions made on a regulated market (Bulgarian Stock Exchange - Sofia) for the amount of BGN 167 038.

Litigation for the period 01.01.2022 - 31.03.2022:

There are no lawsuits filed against the company for the period.

6/ INDIVIDUAL FINANCIAL RESULTS

6.1. REVENUES

	31.03.2022 BGN '000	31.03.2021 BGN '000	Change (BGN '000)	Change (%)
Revenues from sales	772	829	(57)	(6,88%)

7/ PERSONNEL AND ECOLOGY

7.1 ECOLOGY

Sirma Group Holding maintains and observes its commitments in compliance with the national legislation in the field of environmental protection. The company applies measures for separate collection of waste, minimization, recovery and recycling of municipal waste. In 2017, the use of plastic cups stopped, and they were replaced with porcelain and glass cups.

7.2 PERSONNEL

The Company believes that its employees play a key role in the development of its business and the overall corporate goals and therefore pays special attention to the development of a common human resources management

strategy and policies. Sirma Group Holding's policies in this regard are aimed at stimulating the responsibility and motivation of the staff to fulfill the assigned tasks and objectives.

The company and the companies in the group apply certain selection criteria and consider that they have an ambitious team of professionals capable of pursuing the strategic and operational objectives. Sirma Group Holding invests in various training programs for its employees and provides its employees with opportunities for professional development.

The structure of the personnel of Sirma Group Holding has the following dynamics:

"Sirma Group Holding" JSC	31.03.2022 Number of employees	31.03.2021 Number of employees
Employment contract	20	19
Contract for management and control	6	6
Total	26	25

DESCRIPTION OF ALL AGREEMENTS FOR THE PARTICIPATION OF THE EMPLOYEES IN THE CAPITAL OF THE COMPANY.

There are no arrangements for the participation of employees in the capital of the Company.

8/ RISK FACTORS

Risk management objectives and policies

The Company is exposed to various risks in relation to financial instruments. The main types of risks are market risk, credit risk and liquidity risk.

The Company's risk management is coordinated at its headquarters, in close co-operation with the board of directors and focuses on actively securing the Company's short to medium-term cash flows by minimizing the exposure to financial markets.

The Company does not actively engage in the trading of financial assets for speculative purposes nor does it write options.

The most significant financial risks to which the Company is exposed are described below.

8.1 Market risk analysis

The Company is exposed to market risk through its use of financial instruments and specifically to currency risk, interest rate risk and certain other price risks, which result from both its operating and investing activities.

8.1.1.1 Foreign currency risk

Most of the Company's transactions are carried out in Bulgarian leva (BGN). Exposures to currency exchange rates arise from the Company's overseas sales and purchases, which are primarily denominated in US-Dollars.

To mitigate the Company's exposure to foreign currency risk, non-BGN cash flows are monitored. Generally, Company's risk management procedures distinguish short-term foreign currency cash flows (due within 6 months) from longer-term cash flows. Where the amounts to be paid and received in a specific currency are expected to largely offset one another, no further hedging activity is undertaken.

8.1.1.2 Interest rate risk

The Company's policy is to minimize interest rate cash flow risk exposures on long-term financing. Longer-term borrowings are therefore usually at fixed rates. As of 31 December 2022, the Company was not exposed to changes in market interest rates. The Company's investments in bonds all pay fixed interest rates.

8.2 Credit risk

Credit risk is the risk that a counterparty fails to discharge an obligation to the Company. The Company is exposed to this risk for various financial instruments, for example by granting loans and receivables to customers, placing deposits, etc. The Company's maximum exposure to credit risk is limited to the carrying amount of financial assets recognised at the reporting date.

The Company continuously monitors defaults of customers and other counterparties, identified either individually or by group, and incorporates this information into its credit risk controls. Where available at reasonable cost, external credit ratings and/or reports on customers and other counterparties are obtained and used. The Company's policy is to deal only with creditworthy counterparties. The Company's management considers that all the above financial assets that are not impaired or past due for each of the reporting dates under review are of good credit quality.

The Company has not provided its financial assets as collateral for transactions other than collateral for received bank loans.

In respect of trade and other receivables, the Company is not exposed to any significant credit risk exposure to a single counterparty or any group of counterparties having similar characteristics. Trade receivables consist of a small number of customers in single industry and geographical area. Based on historical information about customer default rates management consider the credit quality of trade receivables that are not past due or impaired to be good.

The credit risk for cash and cash equivalents is considered negligible, since the counterparties are reputable banks with high quality external credit ratings.

The carrying amounts disclosed above are the Company's maximum possible credit risk exposure in relation to these instruments.

8.3 Liquidity risk

Liquidity risk is the risk arising from the Company not being able to meet its obligations. The Company manages its liquidity needs by monitoring scheduled debt servicing payments for long-term financial liabilities as well as forecast cash inflows and outflows due in day-to-day business. Liquidity needs are monitored in various time bands, on a day-to-day and week-to-week basis, as well as on the basis of a rolling 30-day projection. Long-term liquidity needs for a 180-day and a 360-day lookout period are identified monthly. Net cash requirements are compared to available borrowing facilities in order to determine headroom or any shortfalls. This analysis shows that available borrowing facilities are expected to be sufficient over the lookout period.

The Company's objective is to maintain cash to meet its liquidity requirements for 30-day periods. Funding for long-term liquidity needs is additionally secured by an adequate amount of committed credit facilities and the ability to sell long-term financial assets.

Financial assets used for managing liquidity risk

The Company considers expected cash flows from financial assets in assessing and managing liquidity risk, in particular its cash resources and trade receivables. The Company's existing cash resources and trade receivables do not significantly exceed the current cash outflow requirements. Cash flows from trade and other receivables are all contractually due within six months.

9/ INFORMATION ABOUT EVENTS AND INDICATORS WITH INCREASED NATURE OF THE COMPANY, HAVING A SIGNIFICANT EFFECT ON THEIR ACTIVITY AND THEIR INCOME AND EXPENDITURE; EVALUATION OF THEIR IMPACT ON RESULTS IN THE CURRENT PERIOD.

There are no events and indicators with an unusual nature for the company that have a significant impact on its operations and its realized revenues and expenses; assessing their impact on results during the current period.

10/ INFORMATION ABOUT OUT OF THE BALANCE SHEET TRANSACTIONS - NATURE AND BUSINESS PURPOSE, FINANCIAL IMPACT OF THE TRANSACTION ON ACTIVITY IF THE RISKS AND BENEFITS OF THESE TRANSACTIONS ARE ESSENTIAL FOR THE COMPANY AND THE DISCLOSURE OF THIS INFORMATION IS ESSENTIAL FOR ASSESSING THE FINANCIAL POSITION OF THE COMPANY.

There are no deals out of the balance sheet of the Company.

11/ ANALYSIS AND FINANCIAL EVALUATION OF THE FINANCIAL RESOURCES MANAGEMENT POLICY WITH THE POSITION OF OPPORTUNITIES FOR THE SERVICE OF THE OBLIGATIONS, THE EVENTUAL THREATS AND MEASURES WHICH THE COMPANY WAS PREVENTED OR PROVIDED TO TAKE FOR THE PURPOSE OF REMOVING THEM.

The management of financial resources is subject to the requirement of maximizing efficiency while respecting payment deadlines agreed with both suppliers and customers. This means a predominant use of own funds, resulting in lower financial costs and interest costs. On the other hand, there is a significant reserve of undrawn loans that can serve both current and investment costs, which maintain high liquidity of payments.

The entity's ability to service obligations is expressed in terms of liquidity ratios in the description of the liquidity risk in this report. As evidenced by the values of the liquidity indicators, Sirma Group Holding JSC has no problems in meeting its obligations, both in the medium and long term. The company has regular proceeds from sale, while also using bank overdrafts, which allows it to service its obligations by successfully managing its financial resources and to properly and timely service its obligations.

12/ ASSESSMENT OF THE POSSIBILITIES FOR THE IMPLEMENTATION OF INVESTMENT INTENTIONS WITH THE SIGNIFICANCE OF THE AMOUNT OF EXPENDITURE AND THE EFFECTIVENESS OF THE POSSIBLE CHANGES IN THE STRUCTURE OF FINANCING THAT ACTIVITY.

The management estimates that it is possible to realize the investment intentions declared with the prospectus for initial public offering.

13/ INFORMATION ABOUT OCCURRING CHANGES IN THE REPORTING PERIOD IN THE MAIN PRINCIPLES FOR THE MANAGEMENT OF THE COMPANY AND ITS ECONOMIC GROUP.

There were no changes during the reporting period in the company's main management principles and its economic group.

14/ INFORMATION ABOUT THE MAIN CHARACTERISTICS OF THE FINANCIAL REPORTING PROCESSING INTERNAL CONTROL SYSTEM AND RISK MANAGEMENT SYSTEM IN THE COMPANY.

Under Bulgarian law, the management should prepare an interim report on the operations and a financial statement for each quarter to give a true and fair view of the Company's financial position as of the end of the year, financial performance and cash flows in accordance with the applicable accounting framework. Management's responsibility also includes the implementation of an internal control system to prevent, detect and correct mistakes and false statements as a result of the accounting system's actions. In this respect, the management observes the following basic principles in its activities:

- adherence to a particular management and accounting policy disclosed in the financial statements;

- carrying out all operations in compliance with the laws and regulations; coverage of all events and operations in a timely manner, with the exact amount of the amounts in the appropriate accounting articles. - accounts and the relevant reporting period so as to allow the financial statements to be prepared in accordance with the specific accounting framework;

- observance of the precautionary principle in the valuation of assets, liabilities, income and expenses;

- detection and termination of frauds and errors;
- completeness and regularity of accounting information;
- preparation of reliable financial information;
- adherence to international financial reporting standards and adherence to the going concern principle.

The interim separate financial statements have been prepared in accordance with the going concern principle, taking into account the possible effects of the continuing impact of the Covid-19 pandemic and the launch of a fullscale military invasion in Ukraine..

During the reporting period, there have been no changes in the basic principles of management of SIRMA GROUP HOLDING.

15/ INFORMATION ON CHANGES IN MANAGEMENT AND SUPERVISORY AUTHORITIES DURING THE PERIOD.

No changes during the period considered.

16/ INFORMATION ABOUT THE USE OF THE FUNDS FROM A NEW ISSUED SHARES AND SECURITIES IN THE REPORTING PERIOD.

No funds from a new issued shares and securities were used during the reporting period.

17/ DETAILS OF THE DIRECTOR FOR CONNECTIONS WITH THE INVESTOR, INCLUDING A TELEPHONE AND ADDRESS FOR CORRESPONDENCE.

19/ EVENTS AFTER THE END OF THE REPORTING PERIOD

Purchase of shares from a subsidiary

On 01.04.2022 the subsidiary "Sirma Solutions" has acquired 105 000 more shares from the capital of "Sirma Group Holding" JSC through 3 transactions, made on a regulated market (Bulgarian Stock Exchange - Sofia) for the amount of BGN 53 550.

On 06.04.2022 the subsidiary "Sirma Solutions" has acquired 250 000 more shares from the capital of "Sirma Group Holding" JSC through 9 transactions, made on a regulated market (Bulgarian Stock Exchange - Sofia) for the amount of BGN 112 912.

Complicated international situation

The full-scale military invasion of Russia in Ukraine, which began on 24 February 2022 and continuing at the time of publication of interim separate management report, caused a wide international response and affected the countries of Europe in various aspects. The expectation is that the military conflict will have a negative impact and affect all businesses to one degree or another.

The escalation of hostilities between Russia and Ukraine, the imposition of sanctions and restrictions by the European Union, USA, Canada, Britain and other countries on Russia, the Russian Central Bank, credit institutions, companies, individuals and the closure of Russian stock exchanges, cause significant shocks, ubiquitous on financial markets. The company has no direct exposure to Ukraine or Russia. However, the impact on the general economic situation may necessitate a revision of some assumptions and judgments. At the same time, inflationary pressures continue to increase, with military action and rising quotations on all commodities expected to increase further.

Systematic risks operate outside the Company, but have a key impact on its activities. These risks are specific to the whole market and cannot be avoided by diversifying the risk, as they are related to the macroeconomic situation, the political situation, regional development and others.

The economic sanctions imposed on Russia by USA and the European Union in connection with the military conflict are likely to have a direct impact on the Company's activities, in relation with the indirect effects of the effect on business and consumer confidence and commodity markets.

CEO:

Tsvetan Alexiev
